

# Become a Great Springs Project Mission Sponsor

As a GSP Mission Sponsor, you will play a crucial role in upholding land and water conservation outcomes in the Hill Country while aiding in the construction of a 100-mile network of recreational trails connecting San Antonio and Austin. Since GSP's conception, over one third of the trail has been constructed and over 5,000 acres of natural land have been conserved.

Sponsor engagement is vital to the success of the GSP Mission, and your organization will receive recognition for their contributions.

## Why support GSP?

Great Springs Project works to unify existing local efforts to address the most critical water, land, wildlife, and public health challenges facing the Central Texas region. This can only be done together, and you can be a part of a project that will benefit the Texas Hill Country for generations to come.
